

The Opioid Public Health Crisis (OPHC) Program and Trainer Course

Course Description

The Opioid Public Health Crisis (OPHC) Trainer Course will teach you how to deliver the program within your community(ies).

The Opioid Public Health Crisis (OPHC) Program and Trainer Course is available for use by individuals, healthcare professionals and groups and organizations who are working to prevent and reduce the effects of the opioid public health crisis or who serve individuals at risk for opioid misuse/addiction or overdose.

This program is designed to be delivered to layperson or professionals within your community(ies). This includes, but not limited to:

Businesses, coalition and community members, correctional facilities, educators, faith groups, government, health care professionals, parents and caregivers, pharmacies, school nurses, senior living facilities, sober living communities, treatment and recovery centers, etc.

The training course provides the necessary information to understand and address the potential misuse of opioids, risk factors, and suggested prevention and reduction methods. The training course includes a toolset which is customizable for the professional or layperson audiences.

When deployed across a community, or state, it results in all key stakeholders carrying the same awareness and knowledge level and improves cross-channel collaboration and results.

What You Will Learn

You will acquire an in-depth understanding of and the tools to train individuals on the opioid public health crisis: what is occurring, how we arrived here, the contributors and risk factors. You will learn how to recognize the signs of an opioid overdose and how the opioid reversal drug Naloxone works. The course will conclude with a review of the multi-faceted solutions model that states and communities are applying to reduce the effects of the health crisis.

Pre-Requisite

Successful completion of "The Brain and the Disease of Addiction" online course is a pre-requisite for being trained to deliver the Opioid Public Health Crisis (OPHC) training.

Certificate of Completion

This course includes a "Certificate of Completion" delivered upon achievement of 80% minimum passing grade on the final exam.
